

**Landmark
PRESS**

www.landmark-press.com

print finish service

Collation • Punching • Wire Binding

Landmark Press publishes the most widely read tourism publications in Scotland and is a major leaflet distribution and display company. Our Bedroom and Schools folders are wire bound in house - an annual job comprising over 7 million mixed stock pages in 18 separate editions.

We use high volume **Coltec** and **James Burn** finishing machines (details overleaf). Having recently expanded our premises in Carrbridge we can now offer our document finishing expertise to the printing trade in Scotland.

We already have an excellent relationship with many printers throughout the country – as buyers of large quantities of print ourselves – and as recipients of huge volumes of leaflets from our folder and distribution customers!

We would be delighted to have the opportunity to quote for your collation, punch and wire binding business for booklets and calendars.
